

Mitcham to Syndal Water Mains Renewal

Some sections of the water mains used to transport water between reservoirs are coming to the end of their working life and need upgrading. That's why in mid-November we're renewing sections of the M22 and M46 water mains that cross Hawthorn Road and Mahoneys Road in Forest Hill. Thank you for your patience as we get to work ensuring the water mains remain essential to our way of life today, tomorrow and for generations to come.

Road closure – Hawthorn Road and Mahoneys Road

The project team will be digging and laying new water pipes across the intersection of Hawthorn Road and Mahoneys Road from Monday 7 November until Wednesday 14 December 2022. The following traffic diversions will be in place to safely guide motorists around the closure.

School drop off and pick up zones

The project will implement two u-turn facilities on Hawthorn Road and Mahoneys Road under traffic control to facilitate school drop off and pick up from Burwood Heights Primary and Forest Hill College. Parents and guardians are advised to allow for extra travel time and exercise caution while dropping off and picking up students from the schools.

Bus routes 735 and 736 will divert through Romoly Drive in both directions while the roundabout is closed.
